## Carp's to Build Super Dept. Store And Market

\$1,300,000 Project To Be in New Center Along Nameoki Road

Construction of a new shopping center complex at Ponton and Nameoki roads will get under way within the next 90 days and will be completed, when completed, by Carp's Super Department store and a Foodtown Super Market, it was announced today.

Both units will be housed in a single one-story building and both will be operated by Carp's, Inc., which has operated a store in downtown Granite City for 46 years.

Cost of the building and first phase of the shopping center development is estimated at \$1.3 million. Future construction at the site, already in the planning stage, eventually will represent a total investment of \$2.5 million.

Henry Ross Construction Co. will be the builder. He said the building will be 470,000 feet, providing about 90,000 square feet of floor space for the department store and super market.

To Remain Downtown The Carp's store in downtown Granite City will continue in operation, according to H. Ross.

## 5 Robbers Use Chemical Spray On Joe Michels

From 45 to 50 suits valued at about \$3000 were hauled out of Michels Men's store, 1922 State street, by four men and a woman who held the proprietor, Joe Michels, at knifepoint and sprayed a chemical substance in his mouth and face about 7:30 p.m. Friday.

Michels, 66, said one of the men forced him to the floor with a knife at his throat and the woman sprayed the chemical while the other three loaded the suits into an auto parked in the front.

The bandits fled in a 1959-62 black auto. Witnesses saw them loading the car. Michels went to a cab stand next door to call police, but the thieves were gone when an officer arrived in six to seven minutes.

Michels, who said his assailants were in the store earlier, has been victimized by thieves previously, but the loot was never as large. He was robbed of clothing in July or August, he said, and police noted that 12 suits were taken about a year and a half ago.

The proprietor, complaining of soreness was examined at St. Elizabeth Hospital and was released Friday evening.

"I don't know why they didn't kill me," Michels said in disgust. "They had me on the floor. I've had it. How can you stay in business. Now I've got to work for the next five years for nothing."

"They come in with plastic hammers. It's like carrying out a basket full of money," Michels said. "His insurance would cover only about a third of the loss."

## Thousands Attend Scouting Fair; Graham is Honored

An estimated 4000 persons viewed the 1968 Scout Fair Friday and Saturday at the Wilson Park rink, and hundreds were present Saturday night. Carl Graham was honored there for providing a camp Graham and performing numerous other services to the Cahokia Mound Boy Scout Council.

A large metal plaque containing a bust of Graham and outlining his "distinguished service to scouting" was unveiled. It will be installed on a block of granite in ceremonies at Camp Graham, tentatively set for 2 p.m. Oct. 20.

Graham, a local businessman, described his scouting work as a "labor of love" whose reward has been seeing young boys develop through camping and other scouting experiences into responsible adults.

The book store owner's contributions to scouting and to Blackburn College were reviewed in a talk by Henry D. Karandjef, head of a special camp committee of the council. He noted that M. A. Wittengel, Ralph Bailey and Dale Arnette aided in preparing the plaque.

Council President Carl E. Matthews presided. Scout Boy Chairman Lt. Col. David V. Fox had presented a welcoming talk at the initial stage performance by scouts Friday.

Blue ribbon presentations were made to Stallings Pack 96, Madison Pack 21 and Troop 21, Nidringhaus PTA Pack 12, Venice Pack 107, Maryville PTA Pack 59 and Knights of Columbus Troop 18, St. Elizabeth Holy Name Troop 13, Central Christian Troop 59 and Concordia Lutheran Post Six. The development plan and zoning and subdivision ordinances were presented to representatives of the sponsoring tax agencies in a meeting in late August. In mid-September it formally was accepted by the City Planning Commission.

Earlier the council had asked Allen to obtain a legal opinion concerning legality of holding a special city election, in which the city would be required, in conjunction with a general election when registration is required. Allen sought the opinion from the Illinois Municipal League.

In the opinion received by Allen, the city could schedule the election for either the national election in November (Nov. 5) or the next municipal election in 1969. Once a proper petition is prepared, he added, it should be acted upon by the voters at the earliest possible time.

The text of Pfeiffer's legal opinion said:

"Receipt is acknowledged of your letter of Oct. 4 concerning a petition requesting an election to fill the vacancy of alderman."

"I agree with Allen that it is a question of the wrong section of the Code in the petition and the crossing out of the word 'election' and the insertion in ink of the correct section does not invalidate the petition, for as you point out, there is no requirement that the petition be signed by the voters at the time of signing by the petitioners."

"As to your question when the election should be held, the answer is much more difficult to determine. Section 3-2-2 of the Illinois Municipal Code states that if not otherwise provided by the code, the manner of conducting municipal elections shall be as nearly as possible the same as the provisions set out under the Election Code. Sections 3-2-1 and 3-2-4 have to do with the manner in which the number of aldermen may be reduced and provided for by ordinance. It does not state how the election shall be conducted."

## Vandals Leave Concrete Deer in Damaged Auto

Granite City police are holding a miniature concrete deer, weighing about 30 pounds, which was found in an upright position on the back seat of an auto with a shattered rear window.

Mary L. Poole, 1688 Brans, avenue, told police that she heard an auto leaving the vicinity of the house about 10:30 p.m. Sunday. She discovered the rear car window shattered and the brown and white concrete deer on the back seat. She noted the deer's antlers are missing.

The dedication ceremony was conducted by William Kozyak, president of the Granite City park district, who was assisted by Barry Lorman, board vice president, and the district commissioner Milton Worthen.

Also participating in the ceremony were Al Herman, Paul B. Stearns, representing Mayor Paul D. E. W. Walton, president of the Granite City school board; Miss Leona Marmis, 48 Miss Granite City of 1968; and George Eubanks, president of the Maryland Community Center, an organization that with Mr. Stearns' aid, founded the park-playground and then turned it over to the park district.

Kozyak presented a resolution to Stearns, honoring his efforts in creating the playground, while Worthen, for whom Worthen Park at Amos and Franklin avenues was named, presented a check for \$85 to the park district.

Mr. Stearns, 72, retired businessman and public official, was accompanied to the ceremony by his wife, Carolyn, and son, Charles of Houston, Tex.

## Special Council Meeting Is Called

Opinion by IML Favors GC Solon Curbback Vote With Nov. 5 Election

An ordinance calling a referendum Nov. 5 on a proposal to reduce membership of the Granite City council by half is to be presented to the council for action in a special meeting called for 7 p.m. Wednesday.

The special council session was called by Mayor Donald Partney Friday within a matter of hours after City Atty. Richard Allen received a legal opinion that petitions submitted by a citizens' group seeking a vote on the council reduction are legal, and that the referendum legally could "and should" be called at the earliest possible time.

The legal opinion, received from Frank M. Pfeiffer, general counsel of the Illinois Municipal League, said that after a majority of council members stalled action on the petition in the Oct. 7 council meeting and said such an election should be held in conjunction with the 1969 city election.

## Boy, 12, Killed In Bike Mishap On Route 103

Cyclist John Pempiller Struck by Auto While Riding in Darkness

A young Mitchell boy, 12-year-old John Edward Pempiller, was killed about 7:30 p.m. Friday, when he was riding his unlighted bicycle along Nameoki road (Route 203) about two-tenths mile south of Marysville and was struck by an automobile.

The boy, a sixth grader at Mitchell school and son of Mr. and Mrs. John Pempiller of 37 Mountain drive, was dead on arrival at St. Elizabeth Hospital. He suffered head injuries and a fractured left leg.

State police said the motorist, William Ogden, 19, of 3053 Washington avenue, was traveling down and crossed the center line to pass another vehicle when the left front fender and bumper struck the cyclist, who was riding north.

The youth, a Boy Scout, was returning home after having gone to the Nameoki Village sports center to sell tickets to the Scouting Fair.

Highway Was Dark It was dark at the time of the accident. No charges were placed against the driver.

The Pempiller family has lived in this area about a year. The boy attended Frohardt school before the family moved to Mitchell about three months ago. The Pempillers came to this area from Tooele, Utah. Mr. Pempiller is a federal employee and is an inventory manager with AFSOM in the Mart building, St. Louis.

The youth was born at Ft. Lee, Va., and in addition to his parents is survived by four sisters, Miss Carolyn White, 17, of Berlin, Germany, and Cheryl, 15, Cecilia, 11, and Vera Pempiller, 2, all of Mitchell; three brothers, Joseph White, 15, of Frankfort, Ky., James White, 9, of Mitchell, and Mark Pempiller, 8, of Mitchell.

Also surviving are grandparents—Kenneth and Margaret Pempiller of Panora, Ia.; Harold and Helen Slack of Stockton, Utah; and Mrs. Millie Shorn of Frankfort, Ky., and great-grandmother, Mrs. Dorothy Pempiller of Perry, Ia.

An inquest is pending. Grave services were held at 2 p.m. today at St. John's Cemetery. Further information is given in today's obituary column.

Girl, 5, Hit by Car

In a separate mishap, occurring about 4:30 p.m. Saturday, a five-year-old Vickie Osborn was injured when struck by a car in the 2200 block of Ohio avenue, where she was being treated at the hospital for bruises and abrasions to her head and face and both knees.

The girl, a daughter of Mr. and Mrs. Melvin Osborn, 2203 Ohio avenue, a first grader at Washington school, was being chased at play and ran into the street from behind a parked car. "She always watches when she goes into the street, but I understand she was being chased by some boys," the mother said.

Police said the auto was being driven north on Ohio by Norma Hufstader, 37, of 2409 Bryan avenue.

ducted and at what type of election shall be held. Section 1-3 of Paragraph 46 contains definitions under the Election Code and the word "Election" includes the submission of all questions of public policy which would cover the proposal in issue. This section then goes on to define "Regular Election," "Special Election," "General Election" and "Municipal Election." The only language used in the sections authorizing the referendum is the word "election" and nowhere are these elections further defined as regular or general or municipal.

It could be argued because the proposal to be voted on effects only the municipality of Granite City that it should be conducted at the next municipal election which would be in the spring of 1969. It could also be argued that the proposition should be submitted to the voters at the next regularly constituted election which included all of the municipal voting precincts which would be in November 1968. Where the statute is silent as to the date of an election, it could be reasoned that the next available election would be the one to use.

"It appears to me from the above that your officials could schedule this election for either the regular national election in November or the next municipal election in 1969. There being no authority in the statute authorizing the reduction of aldermen to a special election, I believe this should be ruled out.

"If your voting precincts are such that the proposition can be placed on the ballot in November, I believe that this should be done for once a proper petition is prepared, it should be acted upon by the

## MORE ABOUT Carp's to Build

bert M. Carp, president of Carp's Inc., which operates department stores throughout Illinois and Missouri, announced that the store in downtown Granite City will remain as it is," Carp said. "We have great confidence in Granite City and would like to see a complete refurbishing of the central business area. We are anxious to see it grow and will do everything possible to be a part of that growth."

Carp said that engineering and planning of the shopping center building is nearing completion and that work should get under way within the next 90 days.

Target date for opening both new stores is August 1969, he said.

The new building will occupy part of a 16-acre tract which extends from a point just north of Tri-Mor Bldg., 3701 Nameoki road, northward to Pontoon road. The area fronts in part on Nameoki road and is bounded on the west by railroad tracks.

#### Rezoning Necessary

Ross has announced that rezoning is being sought on ten residential lots which comprise the only section of the tract that is not presently zoned as commercial property. Action on the rezoning is to be considered by the City Plan Commission in meeting Wednesday afternoon. The rezoning then will be submitted to the city council for confirmation in the Oct. 21 council session.

The contractor said he anticipates no difficulty in obtaining the rezoning since all the surrounding area in the tract now is zoned commercial. Eleven residences on the rezoned tract will be razed and replaced by new utility lines to service the area, he said.

A 120-car parking lot will be built immediately adjoining the department store and food store. Customers will enter the area from Nameoki road and from Pontoon road.

Carp said that planning already is under way for development of the remainder of the tract after the first phase of the building is completed. Consideration presently is being given to construction of an office building which would provide medical and other professional offices.

"It is my belief, as well as yours, that no individual or group outside of an area is so powerful, financially or politically, as to dictate its own terms and force the election of an official irrespective of and contrary to the real wishes of the people, or that an office is for sale to the highest bidder."

## Six Youths Held As Suspects in Area Car Thefts

Six East St. Louis youths were held in the Venice and Madison city jails this morning as suspects in the theft of two, and possibly three, autos in the two communities.

Venice police apprehended all six boys about 12:05 a.m. today after officers had watched two of the suspects working under the hood of a car in the 1100 block of Douglas street.

Venice officers said they were called to the Douglas street address by a neighbor who reported several boys tampering with a car. Police parked their car on Selb street and walked to Douglas where they saw the hood of the car raised and two boys attempting to string a wire from the battery to the coil.

The two boys fled as the officers approached, running west on Douglas to Mercedia street. Police began a search for the youths and were told by several pickets at the Dow plant that they had seen two boys run across a field and whistle loudly. A car containing a number of other boys pulled out of College street and picked up the two boys.

Officers later sighted the car on Douglas street and overtook the fleeing youths at Weaver and Calhoun streets. Officers who had watched the two boys working on the car on Douglas street identified two of the occupants as the boys they had seen.

In the 1100 block of Douglas police recovered a car reported stolen at Madison 20 minutes earlier by Robert Miller, Florissant, Mo. Parked near the Mueller car, police found a car identified from its license plates as belonging to James C. Smith of 310 Selb street, Venice.

At virtually the same time, police found a car at Klein and Broadway which they said belonged to Mary A. May, East St. Louis. Theft reports had not been filed on the May car or the Smith car, although the ignition locks had been punched out of both.

Held for investigation into theft of the three cars, as well as a series of recent car thefts in Venice, were Kevin Richardson, 18, William Henderson, 18, Melton Dowels, 16, Willie Roby, 20, Cicie Reeves, 19, and Bobby Roby, 19.

## Quad-Cities Area to Elect Two Levee Board Trustees

Quad-City voters will elect only two trustees of the East Side Levee and Sanitary district in the Nov. 5 general election balloting—a departure from past election procedure in which area voters balloted on five candidates.

The change is brought about by an amendment to the election code providing that voters ballot only for candidates living within that part of a district separated by specific political boundaries.

The levee district is made up of Granite City, Nameoki, Venice and Chouteau townships in Madison county and East St. Louis, Canteville and Stites townships in St. Clair county, and thus is divided into two political areas by the Madison-St. Clair county line.

The board of trustees consists of three members representing St. Clair county and two members from Madison county. The division of membership is based upon the assessed property values within the two county areas.

## Groups, Individuals, Responding

## Ditty Bag Deadline at ARC is Tomorrow

For the past few days, local social clubs, women's service groups and individuals have been gathering and delivering colorful "Ditty Bags" filled with an assortment of modest Christmas gifts to the Tri-City American Red Cross office, at 1411 Twenty-first street, for shipment tomorrow to servicemen and women in Vietnam.

A goal of 500 bags by Tuesday's shipping deadline is being sought by the local Red Cross chapter through "Operation Shop Early," which got underway in early September. With last minutes delivery of gift bags expected at the office today, chapter officials still are hopeful of meeting the quota.

An accurate count at the present time is difficult, Mrs. Ruby Overbeck, ARC executive said, as most groups and individuals sew and fill as many of the bags as financial resources permit. Bags received at the office after tomorrow will be held until a sufficient number is collected to make another shipment.

"Welcome Gifts"

Mrs. Overbeck pointed out that ditty bags make welcome gifts for overseas military personnel at any time. She noted, however, that the Oct. 15 deadline was set to ensure the gifts will arrive in Vietnam before the Christmas holidays.

TYPICAL WEEKEND SCENE: Rushing to meet Tuesday's deadline for ditty bags for overseas servicemen are members of "The Particulars" club. Left to right—Mrs. Judy Rainwater, Mrs. Susan Nolen, Mrs. Jane Scaggs, president, Mrs. Betty Pike and Mrs. LaVern Wimberly.

One local social club — The Particulars — a group of seven women, plans to deliver 42 ditty bags today to the Red Cross office.

Mrs. Judy Rainwater, a spokeswoman for the group, said that members began the project in mid-September after first obtaining funds from a club-sponsored rummage sale. The women sewed the small fabric sacks at home then sought donations from local merchants to help fill the bags.

"These we approached about the project were very helpful," Mrs. Rainwater commented.

"Several contributed specific items while others gave us reduced rates on various commodities we purchased in their stores."

Include Paint Brushes

She noted that after reading a Press-Record article about requests from combat soldiers for one-inch size paint brushes which they use to clean the M-16 rifles, a club member visited Schermer's Hardware store and received a donation of paint brushes for the ditty bags. The Marine Corps League donated \$20.

Other stores that assisted the group with donations, include Maryland Bi-Rite Market;

Schermer Bros. Supermarket; and Mrs. Verna Michel, a products dealer, and Presley's Market. Gasen's Drug Store, 4 Rays Value store and Pat's Discount Store allowed the group reduced prices on other commodities, she explained.

Those participating in the club project were Mrs. LaVern Wimberly, Mrs. Jane Scaggs, Mrs. Susan Nolen, Mrs. Betty Pike, Mrs. Millie Wood, Mrs. Mayberrn Moore and Mrs. Rainwater.

Mrs. Millie Meehan, ARC office secretary said the women's organization of Emmanuel Baptist Church, 1800 Potomac road, turned in 50 filled bags on Thursday, and 12 more came from a women's group at St. John's Church. More than 100 bags were received at the chapter office by early Friday, she reported.

"Three of the fullest ditty bags you have ever seen were contributed to the project by a small group of ladies, most of whom are widows or living on limited incomes. I believe we could have filled at least six bags from the number of gift items they included in their handmade ditty bags," Mrs. Meehan commented.

Mrs. Overbeck said the National Red Cross expects to furnish more than 600,000 ditty bags to servicemen and women in Vietnam this Christmas. Thousands of servicemen last year sent letters home thanking people for the small but valuable commodities which filled the bags.

Items sent included bathpans, nail clippers, toothbrushes, shoe polish, pocketbooks, small tins of nuts or candies, combs, writing paper, address books, soap cases and pocket games.

New items being requested by servicemen this year are foam insulators for combat boots and tire patching kits to repair rubber boots and ponches.

### Wallace Speaker Says People Will Not Be Fooled

The people are fed up with "briefcase-toting bureaucrats" telling them how to run schools, hospitals, labor unions, farms and lives," Alabama State Sen. G. W. McCarlen told an audience of about 250 persons at a George Wallace fundraising dinner Saturday night in the American Legion Hall in Granite City.

Sen. McCarlen, campaign coordinator for the Wallace campaign in Illinois, told the meeting that "the people will not be fooled this time because they have someone to turn to; someone that understands the problems of the common people."

Area Committee Members

Dr. Jack Weed was master of ceremonies and Norman Chase led the flag pledge. The invocation and benediction was given by Rev. Carl Johnson, pastor of Peace Lutheran Church and president of the Tri-Cities Ministerial Association.

Rodger Budget, Tri-County chairman of the Wallace for President campaign, also was introduced. Entertainment was provided by Miss Alyce School of Dance. The Wallace campaign committee in Granite City includes Harold Bellinger, George Churchoff, Leroy York, Dr. Weed and Joseph Wallace.

The former Alabama governor is to arrive in St. Louis Friday at 4 p.m. to address a 5 p.m. rally and a \$25 per-plate fund-raising dinner. Place of the event has not been determined. Tickets to the dinner may be obtained by calling Room 802 of the Colony Motor Hotel, Clayton, Mo., phone 1-863-1717. The rally will be open to the public without charge.

A large delegation from this area will be on hand to greet Wallace upon his arrival at Lambert Field Friday, it was announced at the dinner.

### Mayor Appeals Court Decision on Committees

Dismissal of a petition for declaratory judgment sought by Mayor Partney in Madison county circuit court on authority to appoint city council committees was appealed to the appellate court in Mt. Vernon Friday.

The circuit court had determined that the council had a right to form its own committees. There was no indication as to when the appellate court might act on the matter.

New committees appointed by the mayor last spring failed to win the approval of the council, which in turn made its own appointments.

As a result, the council largely has been operating without a committee system.

## 'Yule Mail Call' List Continues to Grow

### Press-Record's . . . Yule Mail Call (Clip and Save)

A Madison sailor serving in Vietnamese coastal waters recently received a Merry Christmas card from a Granite City soldier, now in combat near Cat Lai, who appreciated cards mailed to him last year and asked to be listed again; and another serviceman who has been re-assigned to an advance team near Qui Nhon since the first list was published, are among Quad-City military personnel appearing in today's "Yule Mail Call" list.

Local relatives, friends, church groups and service organizations are invited to submit the names and addresses of Quad-City servicemen and women stationed at home or overseas for inclusion in the pre-Christmas project. More than 150 names were contributed to the program in two previous years.

Today's list includes Commissaryman Third Class Anthony V. Ratkewicz Jr., USN, 21, son of Mr. and Mrs. Anthony V. Ratkewicz, 1608 Fifth street, Madison, who will be spending his second Christmas overseas this year.

On Tank Landing Ship The sailor is serving aboard the tank landing ship USS Suter County, operating in Vietnamese waters. Recently, the crew was awarded the Meritorious Unit Commendation and accompanying service ribbon, presented for their service in Vietnam as part of Landing Ship Squadron Three from July 1966 through March 1968.

Ratkewicz has been overseas since August 1967 and is expected to remain in Southeast Asia until March. His mother said the newspaper that last Christmas he received many cards and gifts "from the wonderful folks back home, and it made him feel happy to be remembered."

His younger brother, Allan, 14, is a Press-Record delivery boy.

Another serviceman who wrote how much he appreciated getting cards and letters from everyone last year is Army Pfc Richard W. Harper, the son of Mr. and Mrs. Earl Harper, 2457 Morrison road.

Birthday on Nov. 16 The soldier left for Vietnam on Aug. 4 and presently is assigned to the 11th Transportation Battalion at Cat Lai, where he will observe his 21st birthday on Nov. 16. He entered the Army in July 1967 and last Christmas was stationed at Norfolk, Va.

Pfc Harper and his wife, the former Rilla Miller of Ireland, Ky., will become parents of their first child in December. The serviceman expects to return to the U.S. next July.

Currently with an Advance Team, working in native villages in the vicinity of Qui Nhon, South Vietnam, is Robert C. Keiner, who was re-assigned two weeks ago from the Chu Lai sector.

He is the husband of the former Miss Carol Kiecksef and a son of Mr. and Mrs. Rufus Keiner, 2916 Washington avenue. A graduate of Granite City High school, E-S Keiner, 28, attended

## Challenger Gains 10-Votes, Loses To Groshong 19-18

A circuit court ruling Thursday on an election suit filed by John Mangiaracino left him the loser in his write-in campaign in the June primary to replace Marion Groshong as the Republican committeeman of Venice township Precinct One.

Ten votes were added to Mangiaracino's total, but the new figure of 18 was one vote less than the 19 which poll judges had recorded for Groshong, the incumbent. A 38th ballot was ruled to have been spoiled. His suit named 21 persons who said they had voted for him.

Poll officials originally listed a 19-Groshong victory and called the other ballots spoiled. Mangiaracino said his name was written rather than printed by most of those voters.

Mangiaracino conceded that the 38th ballot was found to be improperly marked after the ballot bag was opened in court, but pointed out that poll judges had prevented him from remaining in the polling place as a challenger and observer.

The defeated candidate also took strong exception to the efficiency of poll officials, asserting that of the 38 who signed as Republican voters in Precinct One, one listed an address that is in Precinct Four and another gave an address in Precinct 11.

The two addresses, both on Logan street, should have been noted immediately by the poll officials, with the prospective voters referred to the correct precinct voting place, he asserted.

Mangiaracino said another of the 38 addresses was for a Dixon road lot that does not have a residence.

He has criticized Groshong, Venice township Republican chairman, for allegedly supporting Democrats consistently in past elections.

A former Venice alderman who also attempted to unseat Mangiaracino said he is awaiting word from Miss Eulalia Hotz, county clerk, on his objection to 142 names on the Precinct One voter registration list. The 142 do not reside in the precinct, he says.

Mangiaracino was represented by Dick H. Mudge and Groshong by Harry J. Papp. The suit, which was heard by Judge Foss Meyer.

## Wallet Left In Booth Is Returned to Owner

Mrs. Kay Neely of 2000 Cottage avenue can testify to the honesty of local residents. "I've just got to let people know," she told the Press-Record Friday morning. "You read all the time about crime and thefts, and this is something different."

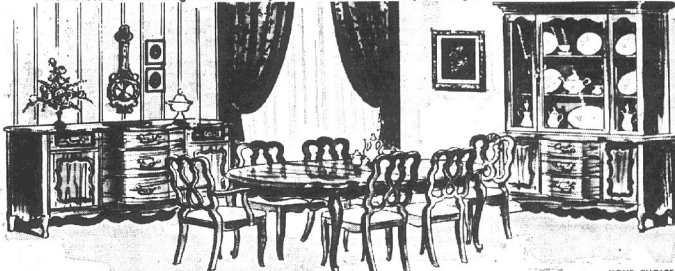

"I made a phone call from an outside booth and left my wallet with about \$12 in it in the booth as I drove off yesterday, and it was late in the afternoon that I got it back—intact."

Mrs. Neely said the booth was on Pontoon road near the A&J Market. "It was returned to me by a television repairman for a local firm who had stopped at the booth to phone to his shop, and he made two trips to my home to return it."

"I offered him a reward, but he refused it. I don't remember his name now, but I am most appreciative," she added.

MR. AND MRS. BILLY G. RUSH, who were married Saturday at West 22nd street Baptist Church. The bride is the former Sheila Shemwell, a daughter of Mr. and Mrs. Charles Shemwell, Rural Route Two.

### Miss Shemwell, Billy Rush Exchange Wedding Vows

West 22nd Street Baptist Church was the scene of the candlelight wedding Saturday evening of Miss Sheila Shemwell, a daughter of Mr. and Mrs. Charles Shemwell of Rural Route Two, and Billy Gene Rush, whose parents are Mr. and Mrs. Marshall Rush of London, Ky.

The Rev. George E. Shemwell, an uncle of the bride, performed the 7 o'clock ceremony, and a reception followed at the church. The double-ring service was used.

Candies in candelabra lighted the altar decorated with bouquets of white stock, mums, blue carnations and greenery. Further illumination was provided by hurricane lamps with white satin bows in the main aisle of the church.

Given in marriage by her father, the bride wore a floor-length gown of white satin, heavily sprinkled with minature seed pearls and crystals trimmed the high neckline and motifs of the lace were used on the long bell sleeves. The Empire waist was molded to a slim A-line skirt trimmed with a band of lace, pearls and crystals scalloped at the front hemline.

The full cathedral train was secured at the high waist with a French bow of satin. It was richly sprinkled with jeweled lace motifs throughout. A princess crown of crystals held in place the bride's tiered veil of imported silk illusion, and she carried a cascade bouquet of white carnations, camellia foliage and white velvet ribbon.

Music for the ceremony was furnished by Miss Joy Clark, organist, and Miss Diane Kofahl, vocalist. The latter sang "Wedding Prayer" and "Twelfth of Never."

Mrs. Norman Russell was matron of honor for her sister, and Miss Sandi Hendrickson and Miss Betty Inmon were bridesmaids.

They were dressed alike in floor-length gowns of turquoise rayon eek with boat necklines. The Empire waists were trimmed in royal blue velvet bands cut to reveal the turquoise fabric beneath. Short sleeves were trimmed with the same blue velvet and flowing brush trains of turquoise were topped with large fabric roses.

Bands of royal velvet trimmed the bottoms of the trains and headpieces of large velvet roses held secure matching blue tulle veils. All three carried bouquets of white and blue carnations and foliage.

A little flower girl, Sherri Lee Russell, a niece of the bride, wore a short dress of white lace over satin trimmed with lace ruffles, the waist encircled with a pink ribbon fastened with a bow in the front and a ribbon bow in her hair. She carried a basket of white and blue flowers. Kevin Shemwell, a cousin, served as ring bearer.

Norman Russell was best man for Mr. Rush; and Duane Shemwell, a brother of the bride, Norbert Schade, Jim Hillmer, and Jim Shemwell, another cousin of the bride, made up the list of groomsmen and ushers.

Miss Cindy Shemwell and

Miss Kandee Shemwell, sister and cousin of the bride, lighted the candles.

For her daughter's wedding Mrs. Shemwell wore a blue sheath dress, light blue accessories and a corsage of blue carnations. The bridegroom's mother was unable to attend the wedding.

After a wedding trip, the destination of which was not made known, the couple will live in Granite City. A 1968 graduate of Granite City high school, the former Miss Shemwell is now employed by a St. Louis bank. Mr. Rush was graduated from the high school in London, Ky. in 1965 and was discharged last July from the U. S. Army after two years service. He is employed by the Chevrolet Shell Plant in St. Louis.

The guest book at the reception was presided over by Miss Donna Duvall. The bride's parents gave the rehearsal dinner at their home on Route Two.

### Miss Emogene Harmon and Larry W. Edwards are Wed

The bride is a daughter of Mr. and Mrs. Carlos Harmon, 6 Iris lane. Mr. Edwards' parents are Mr. and Mrs. Eldon Edwards of East St. Louis.

The Rev. James Grady officiated at the 7 o'clock ceremony before the altar decorated with arrangements of white flowers and lighted with burning candles in candelabra. A reception was held directly afterward at the church.

The bride wore a gown of white silk crepe with a lace bodice and long sleeves. Panels of lace formed a medium length train, and a veil of tulle was held in place with a crown of pearls.

The bride's bouquet consisted of white carnations and posies.

Attending the couple were Miss Leeta Campbell and Gary Bunting. Miss Campbell was attired in a light blue gown with a matching headpiece. She carried a bouquet of pom poms tinted blue.

Ushers were Sp/5 Dexter Harmon, a brother of the bride, and Steven Edwards, the bridegroom's brother.

The newlyweds left after the ceremony for a honeymoon trip. When they return they will live in East St. Louis. Mr. Edwards is employed by the Penn Central Railroad. His bride is employed in St. Louis.

## ILLINOIS SESQUI SCRAPBOOK

BY DON MURRELL AND JERRY WARRMAN

### "Private Joe"

JOSEPH W. FIFER, 19th GOVERNOR, 1859-93, WAS BORN IN VIRGINIA IN 1840, BUT CAME TO ILLINOIS IN 1840, AND SETTLED IN MEADLAND COUNTY, ILLINOIS AT 17. AT THE OUTBREAK OF THE CIVIL WAR HE ENLISTED AS A PRIVATE IN THE 33rd ILLINOIS INFANTRY, AND WAS SEVERELY WOUNDED IN THE ASSAULT ON JACKSON, MISS., BUT ON HEALING, REJOINED HIS REGIMENT. AFTER THE WAR HE BECAME A LAWYER AND STATE SENATOR. IN A DAY WHEN POLITICIANS BOASTED OF CIVIL WAR SERVICE, FIFER WAS KNOWN AS AT LEAST "MAJES, FIFER PRIDE HIMSELF ON BEING KNOWN AS "PRIVATE JOE."

## Illinois in 1818—Early Schools, Colleges Started By Private Groups

The Ordinance of 1787 was the basic act adopted by Congress for the government of the Northwest Territory, the area which George Rogers Clark won for the fledgling nation during the Revolutionary War.

Contained in that ordinance was the declaration that "religion, morality, and knowledge being necessary to good government and the happiness of mankind, schools and the means of education shall forever be encouraged."

Little was done by either territorial or state government to implement that mandate in Illinois until the middle of the 18th century. Nonetheless, schools were started in the territory and in the new state.

They were started by religious groups, organizations and private individuals who sought to do what government had yet to undertake.

It was some years—in the 1850s, in fact—before Illinois accomplished a comprehensive elementary public school law.

And it wasn't until 1857 that its first tax-supported institution of higher education—a two-year teachers' college at Normal—was founded.

The state's early neglect of education didn't preclude Illinois youth from educational opportunities, however.

In a little more than a decade after statehood was achieved, three colleges, McKendree at Lebanon, Shurtleff at Alton and Illinois at Jacksonville, had been started by religious denominations.

In the meanwhile, various organizations and private individuals had commenced quite a few academies, as secondary educational institutions were called at the time.

The General Assembly, then apathetic to education, was even hostile to the efforts of religious denominations to provide higher education.

It early refused charters to McKendree and Illinois colleges, which survive to this day, and to Shurtleff, which has since passed out of existence.

McKendree was sponsored by the Methodist Church, Illinois by Presbyterians and Congregationalists, and Shurtleff by Baptists.

Subsequently, charters were obtained by those three colleges as a consequence of a united effort.

In addition to Shurtleff, Illinois and McKendree, the following privately financed institutions of higher education had been established in the state prior to the 1857 founding of the first public-supported teachers' college at Normal: Knox, 1837; Mount-cella, 1838; MacMurray, 1846; Northwestern, 1851; Illinois Wesleyan, 1852; Eureka, 1855; Blackburn and Greenville, 1857. All continue to this day.

Even as the itinerant schoolmaster and his subscription school provided most of the opportunity early Illinois youth had to obtain a common school education, so did privately supported academies and colleges provide the only opportunity for more advanced study until 1857.

## Misunderstanding Of Renewal Plan Apparently Still Exists On Council

Continued comments at Granite City council meetings—and continued council inaction—indicate that misunderstanding of the renewal plan has not yet been cleared up. A scheduled conference with the City Plan Commission and merchants should help, and additional dialogue also may be needed, perhaps bringing St. Elizabeth Hospital into the picture.

Alderman Green's remark that he is not about to move people out of their homes to help the hospital reflects the misunderstanding. As the renewal proposal itself says, "The hospital has begun purchasing parcels of land adjacent to the hospital and the renewal area would be devoted to commercial redevelopment and the expenditures made by the hospital."

The hospital is involved primarily because it has just conducted a successful modernization-expansion fund drive and has broken ground for a new wing. The contributions—most of them by local aldermen's constituents—can be credited as the city's portion of the renewal costs, most of which would be borne by Uncle Sam. This is mainly why a \$1 million-plus improvement can be carried out without city tax money.

It is true that some of the cleared land would be made available to be purchased for institutional facilities and parking, but it is equally true that a majority of the renewal area would be devoted to non-institutional use—118,000 square feet for commercial redevelopment and 72,000 square feet for public parking.

As pointed out by the application renewal "would develop new employment opportunities and upgrade employment opportunities within the city." It would give a tremendous "shot in the arm" to the downtown business district by adding more variety to its stores and products and greater shopper convenience. It would ease traffic congestion.

Only by assembling small, unusable tracts into larger sites can such progress be achieved. This is why the federal renewal process has been utilized in the planning, and why constructive, responsible city action is imperative.

## Labor Temple In Need of a Tenant

Granite City school district acquisition of office and warehouse facilities at 20th and Adams streets will result in termination of its lease payments to the Labor Temple Association by Feb. 1.

The scheduled reduction in Labor Temple income could make its future operation a difficult maintenance difficulty. The ideal solution would be a new tenant for the main floor of the building, and proposals for occupancy would be welcomed by the association.

The Labor Temple has been closely linked to this community and its unions throughout local history, and the structure still has many

years of usefulness to offer. Through its halls have passed many top labor and public officials as well as many thousands of workers deliberating matters of great importance. We hope that the present cloudy financial outlook can be brightened.

## United Fund Gifts Need to Be At Least 5% Higher Than a Year Ago

With the current United Fund goal 5.4% higher than the amount raised a year ago, each contributor will need to increase his giving by that percentage or more in order to assure success for the campaign.

The entire \$387,104 is needed. It will be used to finance, during 1969 the operation of 19 agencies whose programs are vital to all who live, work, visit or do business in this community.

The organizations holding membership in the United Fund are not paper agencies with statistical exaggerations of their role in the daily life of Quad-Cityans. They are active groups whose treatment of the public can never be fully described.

The difficulty in adequately appreciating United Fund services can be seen by measuring the value of a single agency to one local individual. When this is multiplied by the 19 UF organizations and by the nearly 100,000 people served in one way or another, the impact becomes astronomical.

The Boy Scout Fair held in Granite City last weekend illustrates just one phase of the activity of just one UF agency. Those presenters and attending the fair represented a complete cross-section of the Quad-City as well as Bond county and southern Madison county. They are not "down-trodden," although compassionate and intelligent help for those in need is an integral part of the United Fund; most of those who benefit from UF programs are ordinary people—in fact, the same people who provide financial support to the agencies.

A "people helping people" approach sets the pattern—Quad-Cityans helping each other and themselves and doing the things jointly that would be impossible if done alone. With the once-a-year UF drive in progress this month, now is the time when financial help is essential. The benefits to all will be immense.

## 'Touching Concern' For the Public

Public officials carry out drainage projects for the health, convenience and safety of the public, not for the joy of personally awarding the contract or personally hiring the drainage workers. This is what all officials say, and probably most of them mean it.

This being the case, we are somewhat confused over the East St. Louis and Sanitary District board majority's hesitation to endorse the state of Illinois as the sponsor, along with the U.S. of Madison-St. Clair counties hillside drainage, an improvement that is clearly needed for the health, convenience and safety of the public.

The important point of the project to be accomplished, regardless of who is the sponsor, and that a levee board pledge of cooperation could "move the project along a little faster." The district has sought to be the sponsor in the past.

As we said, we are somewhat confused by the East St. Louis trustees' reluctance, but not totally. President Lawrence Tolar may have hit the nail on the head when he commented that it did not yet know whether the drainage system, once developed, would be turned over to the levee district for maintenance "or just what part we would have in it." The implication seems to be that unless the levee district—despite its long record of spending and hiring inefficiency—gets a "piece of the action," there is no need to hurry in installing the drainage facilities.

Such concern for the health, convenience and safety of the public is so touching that it brings a lump to one's throat and a tear to one's eyes.

## Faculty, Pupil Trends to Ease Shortage of Teachers By 1975

(Bureau of Labor Statistics)

The nationwide shortage of teachers is expected to ease by 1975, permitting expansion and improvement in educational services.

By 1975, the young people born during the postwar "baby boom" will have completed their own education and are expected to enter the teaching profession in record numbers, if the proportion of graduates going into teaching continues along past trends.

At the same time, there will be fewer pupils on hand in elementary schools and only a moderate increase in pupils in secondary schools, due to declining birthrates.

As a result, there will be more teachers than conventional teaching job openings. However, shortages will probably persist in some geographic areas, in urban ghettos, in depressed and rural districts, and in certain subject fields.

A slight decline is expected in elementary school enrollment from 32.6 million in 1967 to 31.3 million in 1975. A slight growth is expected in secondary school enrollment. By 1975, the secondary school population is expected to amount to 21.9 million, 22% more than the 17.9 million in 1967, a much smaller rise than the 45% by which secondary school enrollment grew since 1939.

Teacher employment requirements in elementary schools, projected on the basis of past trends toward smaller classes, will increase only 3% between 1967 and 1975. At the secondary level, a 22% increase in teacher requirements is projected, based on a continuation of the 1967 class size through the 1967-75 period.

The average pupil-teacher ratio in elementary schools was 27.4 to 1 in 1967 and is expected to fall to 25.5 to 1 by 1975. In secondary schools, the pupil-teacher ratio is expected to remain at about 20 to 1 between 1967 and 1975.

At the same time, the number of college graduates is expected to continue climbing rapidly. If the proportion of bachelor's degree recipients meeting certification requirements continues at the levels of recent years (slightly more than one-third), the available supply of teachers from new graduates alone should be sufficient to meet projected demands.

An additional supply of teachers as a result of the entry of former teachers into the profession, which has accounted for about 40% of all entrants in recent years. As manpower constraints are lifted, more communities may introduce or expand kindergarten, nursery schools, and curricula for the physically and mentally handicapped or the gifted.

Programs aimed at helping the underprivileged, the unemployed and Army recruits may also increase the demand for teachers as a result of the knowledge that teachers will be available for filling.

In addition, as an adequate supply of teachers becomes available, educational planners may feel they can improve the quality of education by hiring additional teachers to reduce class size. The resulting effect on manpower requirements of such action could be very significant.

As adequate supplies of teachers also will permit a more careful screening of job applicants.

The alleviation of the shortage of teachers in the 1970's should, therefore, result in the improvement of the quality of education in this nation's elementary and secondary schools.

The large number of college graduates expected could contribute to an alleviation of shortages in other occupations, such as counselors, librarians, social workers and workers in health occupations.

## 50 YEARS AGO

OCTOBER 14, 1918

The number of cases of Spanish influenza here during the present epidemic has risen to 400, including many slight cases as well as instances of severe illness.

There have been six deaths locally, and four local boys have died of Spanish influenza at Army camps. Public gatherings continue to be forbidden.

We can't all be there and have the glory of individual conflict with the hun, of smashing his lines again and again, chasing him legions across the Rhine, across the war home to those who started it. But we can share in that glory by seeing that our fighting men lack for nothing in guns, food, munitions or ships. Buy Fourth Liberty Loan bonds.

### PREDICTS WORKING MEN WILL NOT BACK WALLACE

George Wallace appears to have support of a considerable number of working people in this country at the present time.

However, I have utmost confidence in their judgement and maturity in casting their vote, and predict the overwhelming majority will vote on Nov. 5 for the man whose record deserves their support—Hubert Humphrey.

Wallace has run a campaign based on prejudice and hatred. He has played on the people's hidden fears, and made oversimplified solutions to complex problems sound convincing.

He has tried to cover up his miserable record in Alabama by subterfuge, half-truths and false promises.

The American worker isn't so easily fooled, however, and is looking at the Wallace record.

They are wondering how Wallace can be for the "working man" and yet surround himself with top advisors who are leaders of the John Birch Society, Ku Klux Klan and white supremacy groups.

The American worker is concerned about George Wallace's use of state police to break strikes in Alabama. He is wondering why Mr. Wallace permitted a right-to-union law in Alabama.

Other facts of the George Wallace record in Alabama that working people are looking at are:

The high unemployment rate in Alabama.

The low unemployment rate in Alabama.

### workman's compensation benefits in Alabama.

The high taxes imposed on low and middle income citizens of Alabama.

The low wages that prevail in Alabama.

The high rate of crime in Alabama, especially the murder rate in Birmingham (12.2 per 100,000 people in Birmingham compared to 7.7 per 100,000 in Washington, D.C.).

The low expenditures to provide decent schools and highways in Alabama.

The high rate of illiteracy in Alabama.

Fast talk and compromise jokes have not straightened out the miserable conditions existing in Alabama—The record speaks for itself.

PROUD OF PASTORS WHO FAVOR OPEN HOUSING

To the Editor:

I want to state my support for the clergymen of the Quad-City in their stand in favor of open housing which was published in the Oct. 7 Press-Record.

These men have taken a noble stand in the face of "law and justice" at a time when the

### NOV. 5 ISSUE—FREEDOM OR GOVERNMENT CONTROL

To the Editor:

On Nov. 5 we will be called on to select officials to steer the course of our government—federal, state and county.

Before voters go to the polls, I hope they remember the ten commandments for government.

Such concerns for the health, convenience and safety of the public is so touching that it brings a lump to one's throat and a tear to one's eyes.

Operating under the guise of democracy, we are miserably failing our founding fathers in following the national constitution.

The chance of correcting this will be in the hands of voters Nov. 5. They should vote after first weighing their decision. They should make sure they are not fooled into giving up their freedom.

The philosophies of the aspiring candidates should be

### judged by the wiles of (tyranny).

Such a popular and Communist mean government ownership and control, eliminating private capital and investment.

Such a system stifles the people, creating degeneracy and stupidity. No free nation can hope to survive the onslaught of this type of government dictatorship. It has failed in Europe and has nearly caused failure here.

Our government is financially unstable. More and more programs which waste government funds are being introduced by snap judgment and as experiments.

Operating under the guise of democracy, we are miserably failing our founding fathers in following the national constitution.

The chance of correcting this will be in the hands of voters Nov. 5. They should vote after first weighing their decision. They should make sure they are not fooled into giving up their freedom.

The philosophies of the aspiring candidates should be

### studied. It should be remembered that talk is the cheapest product on the market.

Government must be stable and conserve the people in the mainstream of America. We cannot support the world when parts of it have nothing to offer us in return but war and destruction of human life.

War, to bureaucrats, is prosperity. But to the people, war is just what General Sherman said it is—simply hellish.

### OBJECTS TO HOUSING STATEMENT BY PASTORS

Are the ministers of Granite City great ones to be sound in the new housing program? (In an advertisement Oct. 7?)

For the greater part, they don't even own the property they live in.

Neither do they pay the high taxes that would be required to support families who would move into our area.

The first month's rent and collect their livelihood off of the city they live in.

The widows of their churches, who helped pay for the parsonages by sacrificing and working long hours in their own homes in order to make ends meet, will be subject to the neglect and destruction of their property.

Most of the ministers live in urban areas and would not be "inner city" people who make up a large portion of their congregation.

The ministers know that if the situation gets too sticky for

### them, they can always go to their bishop and be moved. Not so with their members.

When they were ordained, if they remember correctly, it was to preach the "word of God" to their church—not to meddle in politics or stick their nose into something that is none of their business and doesn't directly involve them or their families.

I am an active church member, not a bigot, and if I belonged to one of their churches I'd be asking for a letter of transfer. I speak for many who have voiced both their disappointment and disgust regarding the statement by the ministers.

### LOCAL WOMAN DEMOCRATS MAKE SENSE

To the Editor:

I was reading The Forum column when I saw the letter from the Madison resident Oct. 3.

The writer said the Democratic trailer was copying off the Republican trailer. How silly can he be? He sounds like a school child.

Just because the Republican trailer was in Nanticoke Village (not a town) is no reason the Democratic trailer is there because that is the best location.

Because of the Democratic trailer I am going to vote straight Democratic this year. I went in there for some literature, and the people there as nice as can be. What they said made sense.

## September Freight Down at Canal Locks

Freight tonnage shipping through the Chain of Rocks locks and canal during September totaled 3,455,000 tons, a drop of 767,538 tons below August shipments of 4,222,538 and a decline of 276,965 tons below that of September a year ago, according to a report by the U. S. Army Corps of Engineers which operates the locks.

Freight moving through the locks last year included 2,197,500 tons in shipments moving up river and 1,257,150 in downriver shipments, the report said. Of the total, only 400 tons was in government freight.

A total of 4835 vessels moved through the canal during September, including 3784 barges and 817 tow boats. Lockages also were made for 200 passenger boats, 24 small craft and ten passenger boats. Gov-

ernment craft using the locks included two boat-on-barges, nine small craft and 20 patrol boats.

**Freight Increase Declines**

Freight shipments during the month included: petroleum products, 504,950 tons going up river and 161,250 tons downriver; grain, 43,900 tons up and 919,300 tons down; coal, 909,400 up and none down; cement, sand and gravel, 11,000 up and 32,000 tons down; sulphur, 29,000 up and none down; miscellaneous commodities, 382,600 up and 42,700 down; iron and steel products, 18,000 up and 64,100 down; chemicals, 238,650 up and 37,500 down.

September freight movements increased to 32,337,924 tons the total moving through the canal and locks during the first nine months of the year, compared to 31,894,560 tons in the same

period a year ago.

The report shows that a total of 44,303 vessels have passed through the locks so far this year, only a few more than the 44,259 moving through the canal during the same period in 1967.

**Fewer Lockages Made**

A total of 990 lockages were made in September, compared to 1139 in August and 1368 in September 1967.

Figures for the nine-month period this year show a considerably reduced percentage of increase in this year's traffic over that of last year.

The freight tonnage increase for the nine months of this year is up only 353,364 tons over total freight movement of 1967. At this time a year ago, total nine-month shipments of 1967 were an increase of 2,219,813 tons over those of the same period of 1966.

## State Traffic Death Down for September

September traffic deaths totaled 230 according to reports by the Division of Highways and the Illinois State Police. This is a decrease of three per cent from the 238 reported in the same month during 1967.

## Free Dance; Bus Service Planned Halloween Night

A new innovation in Halloween Night dance will be tried this year by the Granite City Jaycees, who plan to offer a free dance at the Nameoki Village shopping center parking area, plus providing free bus transportation to and from the dance for teenagers.

In announcing the Oct. 31 dance tonight, John Fornasewski, Jaycee project chairman said it will be held from 8 to 11 p.m. in a specially-designated section of the parking lot.

"Music will be furnished by the popular teenage group—The Burlington Route," he added.

In previous years, Jaycees members have sponsored Halloween Night dances at the YMCA, at the club financing expenses of the band. However, a charge has been made by the "Y" to the young people attending, a club spokesman said. This year, he pointed out, the teenagers will not pay to attend the dance, nor for bus transportation.

Teenagers desiring bus service to the dance site may board the bus at five widely-separated

## Clerk Adds Extra Hours Nov. 2 for Absentee Voting

The office of County Clerk Eulalia Hotz at Edwardsville will be open from 9 a.m. until noon on Saturday, Nov. 2, last day on which absentee ballots may be cast in person by voters who will be out of the county on election day Nov. 5, it was announced today.

The three-hour Saturday voting period also will be the deadline for casting "short form" ballots on which new residents of the county may vote only for President and Vice-President. Miss Hotz's office receives 200 applications for short form ballots which must be cast in person at the county clerk's office between Oct. 21, when the ballots are to be mailed to the applicants, and the noon deadline on Saturday, Nov. 2.

Unusually high interest in absentee balloting by both civilian voters and those in U.S. Service are seen in political circles as indications of a heavy general election vote.

The three-way campaign in the Presidential race and number of hotly contested issues, as well as spirited contests for offices at state and local levels also are factors supporting predictions of a record Nov. 5 election vote.

Intensified campaigning by Republicans at all levels, spearheaded by the contest between Democratic gubernatorial candidate Samuel H. Shapiro and his Republican opponent Richard B. Ogilvie is expected to attract a greater number of GOP followers to the polls than have cast ballots for many years. A special referendum on a proposal to issue \$1 billion in bonds for a long-range

## USO to Distribute Yule Gifts at Vietnam Clubs

Last year thousands of gifts were distributed to servicemen in USO clubs, military hospitals and by airlift to remote units in Vietnam.

Monetary contributions by generous Americans everywhere through United Fund appeals made possible Christmas Day programs in Vietnam USO Clubs which featured entertainment and free home-cooked dinners with all the trimmings.

Raymond Uram of Granite City, a member of the USO national advisory board, said that USO staff members in Vietnam are already busy in a king plan for Christmas 1968. "We hope that this year's observance will be bigger than ever to help ease the isolation and loneliness of servicemen everywhere in Vietnam, many of whom are away from home for the first time," Uram said.

The USO official noted that postal authorities will no longer

accept packages addressed to "A Serviceman in Vietnam." Such packages should be addressed instead to the Director of a USO Club at a specific APO or FPO address when the sender does not have an individual serviceman in mind.

All parcels bearing an outside label identifying the contents are acceptable, Uram said, adding that the gift items will be distributed by the USO staff during the holidays. Donors pay the postage to the APO or FPO in San Francisco, Calif., from where the packages will be airlifted to Vietnam.

A list of items frequently requested for Christmas, compiled by the USO staff in Vietnam, is published elsewhere in today's issue.

Parcels destined for Vietnam USO clubs, sent via surface mail, should be forwarded as quickly as possible. Packages sent airmail can be mailed up to Dec. 1 for Christmas delivery, Uram advised.

Donors should address packages to The Director at any of the following USO Clubs:

USO ALOHA — CAM RANH BAY, 22nd Replacement Battalion, APO San Francisco, Calif. 96377.

USO AN KHE, APO San Francisco, Calif. 96294.

air and water pollution control programs by the state also is certain to attract the voters.

**Wallace a Factor**

The mounting campaign of Independent Presidential Candidate George Wallace will have considerable impact upon the voting trend and is expected to attract a heavy "blue collar" vote in the industrial areas. Restoration of law and order and the war in Vietnam, top issues in the national campaign, are attracting a high degree of attention unmatched in campaigns of many years.

High interest has been stirred at the local level by the campaign between incumbent Democratic State's Atty. Leon Scroggins and R. W. Griffith, and the contest between incumbent Democratic Governor Leonard Davis and his GOP opponent, Robert Thomas of Granite City.

Madison county's current record for a general election is 97,083 votes cast in 1964 in the Johnson-Goldwater runoff, in which Democrats polled a top heavy vote.

The largest vote prior to that was in 1954 when 62,711 ballots were cast.

The primary election last June produced an extremely light vote of only 28% of the registered voters. These included 24,383 Democrats and 8191 Republicans.

### United Fund Has Fringe Benefits, McCormick Says

"Fringe benefits" of the 1969 United Fund campaign were cited today by Robert T. McCormick, Tri-Cities Area U.F. community services labor representative, in urging working men and women and others to give to the fund drive.

"A contract worth its salt contains fringe benefits," McCormick said.

"The United Fund is no exception. Labor believes in and works for the 19 community agencies which offer these fringes:

"1. Good neighborliness—by giving to the United Fund, union members exemplify the principle of brotherhood.

"2. Personal satisfaction—The feeling of doing good for others produces a deep sense of well-being.

"3. Fulfillment of needs—Children and adults may require a helping hand to adjust to the demands of society. Specialized agencies of the United Fund provide wise counseling and aid.

"4. Youth development—by providing competent leadership and programming, youth agencies prepare our young people for the difficult chores of citizenship.

"5. Reinforcement of values—One of the most important fringe benefits is character development and the fostering of moral and spiritual values which strengthen our society.

"6. Assistance is there when you need it—The important thing about giving to the United Fund is that you never know when you need an agency's help. It isn't always the 'other fellow' who's in trouble; it could be you or your family.

"Here, then, is a fringe benefit that becomes only too real when circumstances send you to a United Fund agency with a problem.

"This is when your contributions pay off in the form of wise counsel and assistance. The United Fund is there when you need it."

### Fighting Charge Filled
